Suqian, Jiangsu Province,
214174 China

If the permitted operating range of all components is kept at all times, we hereby declare that the operation of “Tigo Energy Module Maximizers” in combination with Samil Power inverters poses no breach of the warranty conditions of the inverters

The specification of the operating range of the inverters is documented in the respective instruction manuals and/or datasheets.

The requirements for obtaining the warranty claim are:

- The maximum input voltage of the inverter is not exceeded at any time by the operation of the “Tigo Energy Module Maximizer”
- Samil Power takes no responsibility for the achieved yield of the PV power system because the MPP tracking of the inverter no longer controls the operation of the PV panels
- Samil Power takes no responsibility for the compliance of the complete system in terms of EMC regulations
- Tigo Energy has approved the operation of its products with the according Samil Power products
